GET TO YOUR DESTINATION IN A HEALTHY WAY

Ten Company Strategies[1]

Businesses have a responsibility to ensure employee travel is safe and secure.

CONSIDER POLICIES OR PROCEDURES WITHIN THE BUSINESS THAT ALLOW FOR:

1. Remote or home based work before and after a trip

2. Comp day for travel on weekends/holidays

3. Convenient departure and arrival times (i.e. arrive day before/stay a night after)

4. A reduction or elimination of last minute trips (burden to family commitments)

5. Concierge services

6. Reimbursement for Global Entry and/or TSA Pre-Check status

7. Help with booking travel & filing expenses

8. Seat upgrades

9. Opportunity for direct flights

10. Adjusted workload if always catching up before leaving or after arriving

Did You Know → 4.8 million United States residents traveled overseas for business[2]
