

HI WELCOA HUMANS!

If it is your garage day...

REPLENISH SPARKLING WATERS IN THE REFRIGERATOR

Canned beverages are stored in the cabinets underneath the microwave.

DISHWASHER DUTY

In the morning:

1. If the dishwasher status is "clean", put away all clean dishes.
2. Load any dirty dishes into dishwasher.

At the end of the day:

1. Assist in rounding up dirty dishes from around the office and load into dishwasher.
2. To run or not to run?
 - Do you have a full load? If not, do not run the dishwasher. This will help make the most of the energy, water, and detergent the machine uses. Simply close the dishwasher and flip the magnet to "dirty"
 - If there is a full load and/or things are starting to smell, run the dishwasher before you leave and flip the magnet to "clean"
