Checklist Questions

BENCHMARK 1: Committed and Aligned Leadership

1. For this Benchmark, we will be asking about leadership support at all levels of your organization. Please tell us which of the following levels of leadership currently exist in your organization: (CHECK ALL THAT APPLY)

CEO or most senior leader

VPs and Directors

Other C-suite

Managers

Organizational Commitment

The following questions are about the vision and values of your organization as a whole (either written or unwritten).

2. Our organization's vision and values reflect the importance of employee wellness.

Yes

No

3. Our organization's vision and values reflect input from employees at all levels.

Yes

No

Don't Know

4. Our leaders communicate a purpose for our organization that's about more than profit. This could include serving the needs of employees and other groups (for example, customers, students, patients, community citizens), or improving the environment.

Yes

No

5. In addition to our overall vision, we have a formally stated wellness vision.

Yes

No

Strategic Planning

6. Creating a supportive environment and culture for employee wellness is a strategic priority for the organization. Examples of environment could include the physical workspace, formal policies, benefits, and practices that support employee wellness. Examples of culture could include the norms, rituals, traditions or other informal practices that support employee wellness.

Yes

No

Don't Know

7. Employee wellness is included in our strategic business planning.

Yes

No

Don't Know

8. Our wellness strategy is positioned to help us achieve the larger vision of the organization.

Yes

No

9. What does your organization want to achieve overall with its approach to wellness? **Please note:** We will ask about more specific wellness goals in Benchmark 2 and 4. (SELECT AT LEAST 2 AND STAR YOUR TOP 2 PRIORITIES.)

Support employee health and wellness
 Foster a healthy organizational culture
 Ensure we have a healthy workplace environment
 Attract and retain the best talent
 Improve employee productivity
 Improve brand identity (e.g., your organization's reputation)
 Enhance innovation
 Improve quality of service
 Improve quality of products
 Improve profitability of the organization
 Build customer loyalty
 Increase market share
 Contribute to the greater good as part of socially responsible business practices.

10. Leaders at the following levels contribute to strategic planning for wellness. (Only answer the following based on your response to question 1)

CEO or most senior leader

Very much	Somewhat true
Mostly true	Not at all

Yes

No

Don't know

- a. Fostering competence. *(This could include helping people feel capable and effective in their work, and help them use their strengths and express their capacities.)*

Yes

No

Don't know

Communication & Celebration

26. Leaders regularly highlight and celebrate positive examples of wellness in the organization.

Yes

No

Continuous Improvement

27. Leaders use evaluation findings (e.g., findings from measures of employee engagement, satisfaction, perceptions of culture, health outcomes, etc.) to improve the organization's strategy for wellness.

Yes

No

28. Leaders provide ideas for improving employee wellness to the person or group responsible for managing the organization's wellness approach.

Yes

No

BENCHMARK 2: Collaboration in Support of Wellness

29. Which of the following best describes how your organization supports employee wellness?

We have a formal wellness committee or team responsible for planning and promoting employee wellness efforts.
(If yes, skip to question 30)

Yes

No

Don't know

We do not have a formal wellness committee or team, but supporting employee wellness is built into how we operate as an organization (e.g., people from multiple departments strategically collaborate to improve employee wellness).

Yes

No

Don't know

We currently do not have any process in place to support wellness.

Yes

No

Don't know

30. The leader of the wellness committee or team has direct responsibility for employee wellness (e.g. it is in his/her job description or annual performance goals).

Yes, Full-Time

Yes, Part-Time

No

31. How much training in employee wellness methods has the leader of the wellness team or committee had?
(CHECK THE BOX THAT APPLIES BEST)

☐ They have not been trained in employee wellness methods and do not plan to train.

☐ They have not been trained in employee wellness methods but plan to receive training.

☐ They have received some training in employee wellness methods (This would include past vocational training and/or a college degree in a wellness-related discipline.

☐ They have received training in employee wellness methods in the past, and continue to pursue annual training opportunities to keep up to date with wellness best practices.

32. The group meets regularly.

☐ Yes

☐ No

33. The group meetings have formal agenda.

☐ Yes

☐ No

34. The wellness team/committee has direct access to a senior-level champion for wellness who ensures they have what they need to be successful.

☐ Yes

☐ No

35. Members of the wellness committee or team are highlighted or rewarded (either formally or informally) for their contributions to employee wellness.

☐ Yes

☐ No

Collaborative Planning

36. Which of the following departments are engaged in strategic planning for the organization's overall wellness approach?
Please check "Not Applicable" for any departments that are not part of your organization.

Potential Internal Collaboration Partners	Involved	Not Involved	Not Applicable

Sustainability (e.g., a person who is responsible for finding innovative and economical ways to reduce the impact of the organization's practices on the environment)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Other	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

37. We include relevant external stakeholders (e.g., vendors, health plans, communities, consultants) in the wellness initiative planning process.

Very true

Somewhat true

Mostly true

Not at all true

Inclusivity

38. Which of the following types of employees are engaged in strategic planning for the organization's overall wellness approach? Please check "Not Applicable" for any types of employees that are not part of your organization.

Involved Not Involved Not Applicable

Employees who work primarily in the field

Employees who work from home or telecommuters

Workers at regional offices or satellite facilities

Workers in corporate headquarters or main offices

Workers who don't have daily access to computers

Grassroots Efforts

39. We encourage and empower employees from different areas and departments in the organization to create their own unique wellness approaches.

Yes

No

40. Individuals from the broader community are engaged/considered when designing approaches and initiatives.

Yes

No

Use of Technology

41. What types of technology does the organization use to ensure effective communication and collaboration across departments and work areas?

a. Document sharing apps (for example Google Docs, Microsoft Office Online, SharePoint, Zoho Docs)

Yes

No

b. Collaboration apps (for example brainstorming, brain writing, Candor, Canvas)

Yes

No

c. Messaging apps (for example Skype, Twitter, Slack, Yammer, Chatter)

Yes

No

d. Other type of technology

Yes

No

BENCHMARK 3: Collecting Meaningful Data to Evolve a Wellness Strategy

Data Privacy

42. Our organization has a relentless focus on safeguarding the privacy and confidentiality of personal health information.

Very true

Somewhat true

Mostly true

Not at all true

43. All major employee groups are involved and/or considered when planning the evaluation for our wellness approach.

Yes

No

I don't know

44. We ask all employee groups about the types of support for wellness that would be most helpful to them.

Yes

No

I don't know

45. We ask all employee groups about which wellness goals or outcomes matter most to them.

Yes

No

I don't know

46. We work to find and highlight "bright spots," or examples of what is working well in the organization.

Yes

No

I don't know

47. We collect data about whether employees believe they are able to "live" the organization's values.

Meaningful Workforce Data

51. We collect meaningful information about employee's physical health to inform our wellness efforts.

(This could include information from a health risk assessment or other measures of self-reported strength, energy, vitality, health status, as well as biometric values, diagnosed health conditions, etc.)

Yes, we currently collect this information.

No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months.

No, we do not currently collect this information, and have no plans to collect it in the near future.

52. We collect meaningful information about employee's mental health to inform our wellness efforts.

(This could include indicators of excessive stress, anxiety, depression, diagnosed mental health condition(s), etc.)

Yes, we currently collect this information.

No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months.

No, we do not currently collect this information, and have no plans to collect it in the near future.

53. We collect meaningful information about employee's emotional health to inform our wellness initiatives.
(This could include positive feelings like happiness, confidence, resilience, optimism, gratefulness, mindfulness, feeling validated and encouraged.)
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months.
- No, we do not currently collect this information, and have no plans to collect it in the near future.
54. We collect meaningful information about employee's perceived safety to inform our wellness initiatives.
(This could include assessing whether employees feel safe from physical and psychological harm at work, feel secure enough to take calculated risks and show vulnerability, and are free of concern about meeting basic survival needs.)
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
55. We collect meaningful information about employees' meaning and/or purpose to inform our wellness initiatives.
(This could include life satisfaction, purpose in life, feeling part of something bigger than one's self, knowing that your work matters.)
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
56. We collect meaningful information about employee's financial wellness to inform our wellness initiatives.
(This could include security, safety, able to live comfortably, able to save for retirement, etc.)
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
57. We collect meaningful information about employee's career/achievement to inform our wellness initiatives.
(This could include work passion, engagement, meaningful work, worker satisfaction, feeling supported, having the resources and autonomy to achieve goals, succeeding at meeting individual goals and work aspirations, etc.)
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
58. We collect meaningful information about employees' perceived growth to inform our wellness initiatives.
(This could include feeling able to progress in career, learning and being challenged to use and expand on strengths, etc.)
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.

59. a. We collect meaningful information about whether employees feel socially connected at work. *(This could include positive, trusting relationships with others. A sense of belonging, acceptance and support. Positive connection with managers and leaders. Feeling a sense of connection with colleagues, etc.)*
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
- b. We collect meaningful information about whether employees feel socially connected at home. *(This could include perceived support from and relationships with family members.)*
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
- c. We collect meaningful information about whether employees feel socially connected with friends and community. *(This could include supportive friends, ties to the neighborhood and community.)*
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
60. We measure whether employees feel their work aligns with their own personal values.
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
61. a. We measure indicators of performance and/or innovation. *(This could include quality of service, creativity, quality of products, etc.)*
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
- b. We measure indicators of productivity. *(This could include absenteeism, presenteeism, employee turnover, etc.)*
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.
62. We collect information on health-related expenditures. *(This could include things like disability claims, workers' compensation claims, injury/accident records, and medical claims, etc.)*
- Yes, we currently collect this information.
- No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
- No, we do not currently collect this information, and have no plans to collect it in the near future.

63. We collect information on health behaviors. *(This could include nutrition, physical activity, smoking cessation, responsible alcohol use, stress management, etc.)*

Yes, we currently collect this information.

No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months

No, we do not currently collect this information, and have no plans to collect it in the near future.

64. We track use of preventive screenings as recommended by current relevant guidelines.

Yes, we currently collect this information.

No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months

No, we do not currently collect this information, and have no plans to collect it in the near future.

65. Which of the following methods do you use to collect information about your worksite and workstation conditions?
(This could include things like ergonomics, conditions that encourage productivity (places for quiet concentration, places to convene and brainstorm), maximizing natural light, encouraging movement, heating, ventilation, availability of healthy food, workplace design that promotes connections and social interaction.)

a. Survey of employee perceptions about worksite and workstation conditions.

Yes, we currently collect this information.

No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months

No, we do not currently collect this information, and have no plans to collect it in the near future.

b. Audit of physical worksite and workstation conditions.

Yes, we currently collect this information.

No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months

No, we do not currently collect this information, and have no plans to collect it in the near future.

c. Interviews and/or focus groups.

Yes, we currently collect this information.

No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months

No, we do not currently collect this information, and have no plans to collect it in the near future.

d. Observational methods. *(Examples could include formal or informal efforts to observe and learn from the feedback and/or natural behavior of employees in their workstations and your worksite.)*

Yes, we currently collect this information.

No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months

No, we do not currently collect this information, and have no plans to collect it in the near future.

66. Which of the following methods do you use to collect information about your worksite and workstation conditions?
(This could include things like ergonomics, conditions that encourage productivity (places for quiet concentration, places to convene and brainstorm), maximizing natural light, encouraging movement, heating, ventilation, availability of healthy food, workplace design that promotes connections and social interaction.)
- a. Survey of employee perceptions about our benefits, policies, and practices.
 - Yes, we currently collect this information.
 - No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
 - No, we do not currently collect this information, and have no plans to collect it in the near future.
 - b. Audit of our current benefits, policies, and practices. (Example audits could include this WELCOA's Well Workplace™ Checklist, the CDC Worksite Health ScoreCard, HERO Scorecard, Healthlead, WiScore,® HECheck, etc.)
 - Yes, we currently collect this information.
 - No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
 - No, we do not currently collect this information, and have no plans to collect it in the near future.
 - c. Interviews and/or focus groups.
 - Yes, we currently collect this information.
 - No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
 - No, we do not currently collect this information, and have no plans to collect it in the near future.
 - d. Observational methods. (Examples could include formal or informal efforts to carefully observe and track the use of benefits, policies, and practices)
 - Yes, we currently collect this information.
 - No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
 - No, we do not currently collect this information, and have no plans to collect it in the near future.
67. Which of the following methods do you use to collect information about your organizational culture and/or climate?
(This could include the key patterns of beliefs, values, assumptions, and behavioral norms in the organization (culture), and/or assessing the shared perceptions and attitudes about the organization (climate))
- a. Survey of employee perceptions about our culture and/or climate.
 - Yes, we currently collect this information.
 - No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
 - No, we do not currently collect this information, and have no plans to collect it in the near future.
 - b. Audit or formal review of wellness culture indicators.
(This could include organizational values, norms, goals, rituals, assumptions, etc.)
 - Yes, we currently collect this information.
 - No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
 - No, we do not currently collect this information, and have no plans to collect it in the near future.

- c. Interviews and/or focus groups.
 - Yes, we currently collect this information.
 - No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
 - No, we do not currently collect this information, and have no plans to collect it in the near future.
- d. Observational methods. *(Examples could include formal or informal efforts to carefully observe and track the natural behavior of employees)*
 - Yes, we currently collect this information.
 - No, we do not currently collect this information, but plan to collect it in the next 6 to 12 months
 - No, we do not currently collect this information, and have no plans to collect it in the near future.

BENCHMARK 4: Crafting an Operating Plan

Strategic Program Planning

68. Executive leaders are actively engaged in the planning process.

- | | |
|-------------|-----------------|
| Very true | Somewhat true |
| Mostly true | Not at all true |

69. Our plan for resources, programs and initiatives includes:

- a. Specific goals and measurable objectives (linked to the company's strategic priorities)

Yes	No
-----	----
- b. Timelines for implementation

Yes	No
-----	----
- c. Roles and responsibilities for completion of objectives

Yes	No
-----	----
- d. Itemized budget sufficient to support all initiatives

Yes	No
-----	----
- e. Appropriate marketing strategies to effectively promote our wellness philosophy and initiatives

Yes	No
-----	----
- f. Clear communications about how and why people can get involved

Yes	No
-----	----
- g. Evaluation planning to measure the stated goals and objectives

Yes	No
-----	----
- h. Launch or kick-off celebration to announce our programs and initiatives

Yes	No
-----	----

70. Choose your top five wellness program goals and star your first and second priority. In Benchmark 1, we asked about what your organization wanted to achieve with its approach to wellness. Here we are asking about the specific program-related goals of your wellness approach.

	Yes	No
Manage costs (e.g., costs of health care coverage, workers comp, disability, etc.)		
Improve physical health of employees		
Improve mental health of employees		
Support emotional health		
Employees have a sense of psychological safety		
Help employees find meaning and purpose in their work and lives		
Improve employee morale, satisfaction, engagement, and/or work passion		
Support financial wellness		
Help create trust and connection in relationships between employees, managers, and leaders		
Help employees feel they have the support, resources, and autonomy to achieve their career and achievement goals		
Support employee's ability to build on their strengths—to learn and grow in their work and lives		
Help employees have a sense of positivity, optimism, gratefulness		
Create healthy worksite and work station conditions		
Ensure benefits, policies, and practices support employee wellness		
Reduce absenteeism/presenteeism		
Positively impact the health of employees' families		
Recruit the best talent		
Retain employees		
Link employees to community resources		
Improve conditions for health in communities
